Important information for Exhibitors:-

Cattle should be on the show ground not later than 7.45am on Sunday, 14th July and must remain until 5.00pm on festival day or until the Chief Livestock Steward allows you to exit. Exhibitors leaving before this time may forfeit any prize money won. All prize winners are expected to take part in the cattle parade.

Entry and stalling: Exhibitors should reserve stalls for the number of animals they intend to bring to the show.

Accommodation: Cattle are housed in covered accommodation.

Forage: Exhibitors are asked to make their own arrangements for feeding stuffs. Straw will be provided in the cattle barn.

1. All movements of cattle to and from the show must be recorded separately by the exhibitor in the cattle passport and be reported to the BCMS within 3 days. The Show will also record movements on and off the showground. All cattle should be accompanied by their passports or a certificate of registration. If you have a single page passport (CPP52) and require continuation sheets, they can be downloaded from the RPA website (<https://www.gov.uk/government/organisations/rural-payments-agency>). An officer of the Society will check all cattle documentation at the festival. The Society has to hold accurate records of all cattle/calves attending the show and movement dates.
2. TB Pre-Movement Testing will be necessary for cattle from herds with a routine TB testing interval of 1 year. Please indicate this on your entry form. Please check the latest information on the DEFRA web site, or check the Parish Testing Interval of your holding by entering your CPH number on the AHVLA website at: <http://animalhealth.defra.gov.uk/about/tti/asp>. A copy of any clear pre-movement TB test certificate should accompany each animal to the festival.
3. Cattle must originate from premises which are not under DEFRA restrictions for tuberculosis or brucellosis. They must have been the bona fide property of the exhibitor on his holding at least two calendar months prior to the show.
4. Animals which calve, or show evidence of calving, whilst at the showground must be placed in the approved isolation accommodation pending their removal from the showground.
5. Where an animal calves at full term and the owner arranges for a blood sample and a vaginal swab to be taken and examined at an approved laboratory, and the Rose Bengal Plate Test and microscopical examination of a smear made from the vaginal swab are negative, the animal may return to the show lines at the discretion of the Show Secretary.
6. Where an animal calves prematurely, or aborts, the festival DVM must be informed immediately. The animal must be placed in isolation in the approved accommodation and the full range of samples (including if at all possible a placental smear) should be taken. The animal will not be allowed to take further part in the show.
7. All other bovine animals from the same registered premises will not be allowed to compete further in the Show until negative results from certain tests carried out by a Veterinary Investigation Centre (RBPT and microscopical examination of a vaginal smear from the aborted animal) have been received. They can be returned home with the suspect animal after 7 days.
8. Bulls over 10 months of age should be rung. All bull handlers must be aged 18 years and over. All young handlers under the age of 14 years must be closely supervised at all times.
9. Cattle must be tied up, and exhibitors shall provide their own ties.
10. Any artificial contrivance or device found on or proved to have been used on an animal at any time whilst that animal is in the Showground, either for preventing the flow of milk or for any other improper purpose will disqualify that animal from the competition and the instigator or the owner of the said animal may be prohibited from entering Stock in any future competition as the Council may see fit. The Society reserves the right to have all animals inspected by the Hon. Veterinary Officers, either prior to, during, or after judging.

11. Only the champion of each breed will be eligible to compete for the supreme championship. The reserve of the breed of the chosen champion will be eligible to compete for the reserve supreme championship.
12. Cattle may automatically transfer from In-Calf to In-Milk classes and vice versa.

14. Cattle belonging to herds with CheCS-accredited status must be accompanied by a Herd Certificate of Status, a copy of which should accompany the entry form. Members must ensure that they and their cattle comply with the Scheme rules concerning attendance at shows. For IBR, BVD and leptospirosis, introducing cattle back into an accredited herd after their attendance at a nonaccredited show, involves isolating them from other cattle on the farm for 28 days prior to testing them for the appropriate disease(s). For Johne's disease, the risk of infection at a show is minimal and accredited cattle can be re-introduced to the main herd as long as they have been at the show for no more than 7 days and have not had direct contact with other cattle, particularly with their dung or soiled bedding.
15. Substitutions – In the interests of competition, substitution of animals in the Cattle Section will be allowed up to 16:00pm the Friday before the festival, provided the animal is eligible for the class requirements. This need not be the class originally entered.
